To fully use our services, you will need to register using our online registration form, where you will be required to provide us with your contact and other pertinent information.

IP Addresses

We use IP addresses to administer the site, track page views and the click-through activity of links, and gather broad information for internal use. IP addresses are not linked to personally identifiable information. This information may include the URL that you just came from (whether this URL is on our site or not), which URL you next go to (whether this URL is on our site or not), what browser and operating system you are using and your IP address.

Cookies

We use cookies on certain pages of our site. We may also offer certain features that are only available through the use of a cookie. Cookies are stored on your hard drive, not on our site. Most cookies are "session cookies" and are automatically deleted at the end of a session. The other type of cookie we use is a "persistent" cookie. This stays on your hard drive and we use this cookie so that you do not need to log in manually every time you visit the site if you are a registered user. The cookie itself contains no personally identifiable information. We also use the cookie to track how often you visit the site. You are always free to decline our cookies if your browser permits, although in that case you will not be able to use certain features on our site. For example, if you disable cookies, you will need to log in manually each time you visit the site as we cannot use a cookie to remember who you are.
