HERBAL AFRICA

TESTIMONIAL.

30 August 2004

To Whom It May Concern:

My name is Eric Goodman and I am lay-preacher involved in various community projects in Eldorado Park. Nedbank employs me as a customer consultant.

I first learned about Impi during 2001. I have since been advising community members on the benefits of this product as I have personally seen its beneficial effects on HIV and AIDS patients.

Its results are measure in weeks when generally the health of the patients improves dramatically. Often, people in my care are in a desperate state and their health "beyond repair." Impi's results have surprised me to a point where present beliefs should be questioned. One of my patients was hospitalised and the HIV counsellors had written her of as dead. After starting on Impi, she was able to recover to a point where she was dismissed from the hospital. Her symptoms of HIV-AIDS all but gone.

I recommend Impi to everyone that suffers from the HIV scourge.

Yours sincerely

Eric Goodman

TESTIMONIAL.

30 August 2004

To Whom It May Concern:

I am a 43-year-old single mother of two boys aged 14 and 20 respectively.

I presently reside in Eldorado Park and am unemployed. Previously I was employed as receptionist at a doctor's room.

I found out about my HIV status in June 2003. I started on Bactrin taking one capsule twice daily and Vitamin B complex and Thiamien. My health status deteriorated since 2003. In June 2004, I weighed approximately 40 Kg and my symptoms were: tiredness, perspiration, headaches, lack of appetite, weight loss, "bad skin" and heavy periods.

I started taking Impi during July and since then I gained 10 Kg weight, become more energetic, my appetite increased and my headaches diminished. In effect, Impi has given me a new lease on life.

Yours truly,

Dorcas Myra Snyman

IMPI TESTIMONIAL

Please note: this client wishes to remain completely anonymous and, under no circumstances, are her name, status or contact details to be disclosed.

The client is a Zulu female, a professional woman with her own business. She was diagnosed as being HIV+ a couple of years ago and became extremely ill and debilitated.

She was given IMPI and was taking it morning and evening for several months. After only a couple of weeks she felt a radical improvement in her condition and was able to start living her life in a normal manner.

Her comments as follows:

"I am feeling 100% - not sick at all. I do not feel like a person who has been told that they have a certain illness. That's what you can say, you can tell them that I am really 100%, I am not sick. I am now able to walk long distances without feeling tired at all. I am feeling perfect. My hair is now long and healthy and I am feeling wonderful. I am not sick any more."

TESTIMONIALS

AUGUST 2004

▶ **X-MALARIA**

When 5 members of my family went to Mozambique. One member decided not to use X-Malaria, and took the regular anti-Malaria medication from the pharmacy. The result being that he was extremely ill for 3 days. The other four who used the X-Malaria displayed no symptoms or side-effects whatsoever.

▶ **SLEEP WELL**

The **SLEEP WELL** relaxes me and allows me to sleep peacefully without feeling drugged. I gave some to a friend who was suffering from extreme stress, and it proved to be most beneficial, allowing her to think more clearly the following day.

▶ **BIO-ENERGY**

My son, who is a student, uses **BIO-ENERGY** when he is studying as it keeps him awake, alert and focused, without making him feel “hyper” (unlike the well-known “coffee jags”) and with no withdrawal symptoms.

AUGUST 2004

Rui de Carvalho
Herbal Africa

Testimonial on IMPI and other Herbal Africa products

I am a Healer and, amongst other things, was called in to help a client who had contracted the "Chinese" flu. IMPI was administered and, within 24 hours, the client had no further symptoms and returned to full health.

IMPI has also been used successfully for ordinary flu, and is used regularly by my family for sinus conditions. My son uses it to keep his skin clear (he suffers from acne).

IMPI was recently given to a friend who had been stabbed and the doctors could not believe the speed of his recovery.

I recommended X-MALARIA when five members of my family went to Mozambique. One of these people chose to take the regular anti-Malaria medication from the pharmacy, the result being that he was extremely ill for three days. The other four who each used the X-Malaria displayed no symptoms or side-effects whatsoever.

I personally use the NYALETI face mask regularly and have found it excellent for reducing swelling, leaving my skin healthy, looking younger and with fewer wrinkles.

The SLEEP WELL relaxes me and allows me to sleep peacefully without feel drugged. I gave some to a friend who was suffering from extreme stress and it proved to be most beneficial, allowing her to think more clearly the following day.

My son, who is a student, uses BIO-ENERGY when he is studying as it keeps him awake, alert and focused, without making him feel "hyper" (unlike the well-known "coffee jags"), and with no withdrawal symptoms.

I used LIVER MAX to detox after a bout of food poisoning and the results were fast and highly effective.

Generally speaking, and as you will see from the above, I believe that the Herbal Africa products are unique in their affordability and efficacy, with minimal dosages required, and providing immediate, positive results. Added to this, they are completely natural and the body is not being bombarded with chemicals.

I have no hesitation whatsoever in recommending or dispensing any of these products to family, friends and clients as I have absolute faith in them, knowing that they will produce the desired results with no side-effects.

For further information, I may be contacted on 082 933 7292.

Yours sincerely
